

Sakshi Bane

Software Engineer & Developer

+91 93218 37795 | sakshiubane@gmail.com | [linkedIn](#)

EDUCATION:

AUXILIUM CONVENT HIGH SCHOOL

2010-2022

Secondary Education

VIDYALANKAR POLYTECHNIC

2022- 2025

Diploma in Electronics and
Telecommunication Engineering

AMITY UNIVERSITY, MUMBAI

2025- 2028

BTech in Computer Science Engineering

SKILLS:

- Python
- Flutter
- YOLOv8
- JAVA
- DBMS
- HTML/CSS
- GitHub
- Embedded systems
- Object-Oriented Programming (OOP)
- Data Structures and Algorithms (DSA)
- Operating Systems
- Google Antigravity
- Claude AI

SUMMARY:

Aspiring Software Engineer with a Computer Science and Engineering background and a diploma in Electronics & Telecommunication (EXTC). Skilled in DSA, OOP, DBMS, OS, and Computer Networks, with a passion for building scalable applications, solving complex problems, and learning emerging technologies.

EXPERIENCE:

ASHIDA ELECTRONICS PVT.LTD

2024-2024

During my internship at Ashida Electronics Pvt. Ltd., I worked on SCADA systems for industrial automation, assisting with system monitoring, HMI configuration, alarm/trend setup, and component testing. This gave me practical exposure to real-time data monitoring, industrial control systems, and automation workflows.

PROJECTS:

CITYSCAN

- Edge AI infrastructure detection app
- Built a Flutter app for pothole, crack, and pipeline defect detection
- Integrated YOLOv8 with offline scanning, severity assessment, and geotagged reports

UMEED

- NGO donation and volunteer platform
- Built PHP/MySQL role-based dashboards for admin, donors, and volunteers
- Implemented applications, donation tracking, TCPDF receipts/certificates, and PHPMailer emails

BAATCHEET

- Real-time chat application
- Built WhatsApp-like web and mobile messaging interfaces
- Implemented instant communication, conversation management, and smooth chat experience
